

Phlebotomy

Program Description

A certificate curriculum is designed to prepare a person to function as a phlebotomy technician. It will provide the knowledge, skills, and externship experience necessary to safely and skillfully obtain a blood specimen from a patient. Students will complete multiple blood draws on training arms, as well as live patients, including each other. Eligible students can obtain their phlebotomy certification by passing the state test and fulfilling 30 blood draws. A phlebotomist may work in a variety of settings such as hospitals, outpatient labs, physicians' offices, or clinicals. Phlebotomy is a rewarding and in-demand career. Enroll in this phlebotomy course today and take your first step towards a fulfilling career in healthcare!

Successful completion of either the health occupations class or the pre-med science class is a prerequisite or corequisite for this course.

Students must be a senior and will have some industry rotations and need their own transportation.

2-period block for one semester in the afternoon at the Livingston County EMS facility.
